START AND STAY ON TRACK WITH CAYSTON®

STARTING CAYSTON
Before you can receive your first shipment of CAYSTON, it is important that you complete and understand the following steps in preparation:

1. Enroll in the Cayston Access Program® (CAP)
   This support program can assist you with information about CAYSTON and the ALTERA® Nebulizer System. Call 1-877-7CAYSTON to sign up.

2. Choose your specialty pharmacy
   CAYSTON is only available through specialty pharmacies. Most insurance plans will automatically select a specialty pharmacy for you. If you are able to choose one, make sure it is covered by your insurer.

3. Schedule your first CAYSTON shipment
   Call your specialty pharmacy to order and confirm a delivery date.
   Tip: Your specialty pharmacy may call you from an unknown number to set up an account, so be sure to check your voicemail.

4. Prepare for your first treatment
   CAYSTON is taken as an inhaled breathing treatment with the lightweight, quiet, and portable ALTERA Nebulizer System. Before your first treatment, it’s important that you familiarize yourself with your ALTERA Nebulizer, what you need to do before taking a dose of CAYSTON, and how to prepare your CAYSTON for treatment.
   Note: Do not use any other nebulizer for your CAYSTON treatment.

Don’t Forget
Register and activate your 2-year limited and 12-month extended warranty for the ALTERA Nebulizer System with the manufacturer (PARI).

What is CAYSTON?
CAYSTON is a prescription antibacterial medicine used to improve breathing symptoms in people with cystic fibrosis (CF) who have a lung infection due to Pseudomonas aeruginosa (Pa). CAYSTON is not for infections caused by other bacteria or viruses, such as the common cold. It is not known if CAYSTON is safe and effective in children under the age of 7 or in people with FEV₁ <25% or >75% predicted.

IMPORTANT SAFETY INFORMATION
Who should not take CAYSTON?
Do not take CAYSTON if you are allergic to aztreonam, or any of the ingredients in CAYSTON.

Please see additional Important Safety Information on page 3, and full Prescribing Information, including Patient Information.
ORDER A WELCOME KIT AND CARRYING CASE

The CAYSTON Welcome Kit is designed to help those who are new to CAYSTON get started and stay on track.

A Carrying Case for CAYSTON and your portable ALTERA Nebulizer System is also available.

PAYING FOR CAYSTON

When you are prescribed CAYSTON, you have a number of options to help you access your treatments.

<table>
<thead>
<tr>
<th>Do you have private insurance with a co-pay above $10?</th>
<th>Do you have government or private insurance and need extra financial support?</th>
<th>Are you uninsured? Or have you been denied coverage for CAYSTON?</th>
</tr>
</thead>
<tbody>
<tr>
<td>You may be eligible for both the CAYSTON Co-pay Coupon Program and ALTERA Co-pay Coupon Program.</td>
<td>If you do not qualify for the CAYSTON Co-pay Coupon, the Cayston Access Program can help with independent third-party referrals.</td>
<td>The CAYSTON Patient Assistance Program may be able to help.</td>
</tr>
</tbody>
</table>

If you answered yes to any of these questions, contact the Cayston Access Program at 1-877-7CAYSTON to learn more about your options for accessing CAYSTON.

ONGOING SUPPORT

Becoming more educated about Pa and its effects was the first step in treating it.

My Cayston Community™ contributor, Emily Schaller

Your go-to resource for how-tos, hacks, and helpful tips from members of the CAYSTON community, straight to your inbox. My Cayston Community offers videos, tips and tools that may help you stay on track with your treatment plan.

If you have any questions about your treatment, please ask your doctor.

Please see Important Safety Information on pages 1 and 3, and full Prescribing Information, including Patient Information.
IMPORTANT SAFETY INFORMATION (CONTINUED)

What should I tell my healthcare provider before taking CAYSTON?

- Tell your healthcare provider about all of your medical conditions, including if you are allergic to any antibiotics; if you are pregnant or plan to become pregnant, as it is not known if CAYSTON can harm your unborn baby; if you are breastfeeding or plan to breastfeed, as CAYSTON can pass into your breastmilk. Talk with your healthcare provider about the best way to feed your baby while you are taking CAYSTON.
- Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of CAYSTON?

CAYSTON may cause serious side effects, including:

- Severe allergic reactions. Stop your treatment with CAYSTON and call your healthcare provider right away if you have any symptoms of an allergic reaction, including rash or swelling of your face, or throat tightness.
- Trouble breathing right after treatment with CAYSTON (bronchospasm). Tell your healthcare provider right away if you experience shortness of breath with wheezing, or coughing and chest tightness. To decrease the chance of this happening, be sure to use your inhaled bronchodilator medicine before each treatment with CAYSTON.

The most common side effects of CAYSTON include cough, nasal congestion, wheezing, sore throat, fever, chest discomfort, stomach area pain, and vomiting.

These are not all the possible side effects of CAYSTON. Tell your healthcare provider if you have any new or worsening symptoms while taking CAYSTON and about any side effect that bothers you or that does not go away.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.

Please see full Prescribing Information, including Patient Information and Patient Instructions for Use.
